APPLICANTS' SELF ASSESSMENT OF FUNCTIONING OR CIRCUMSTANCES

The purpose of this (pre-test) survey is to gather information from applicants on how they rate their circumstances in the following areas. When talking with the applicant, you might try a conversational approach like this: I have to gather some information from you now that asks you to rate how you are doing in a variety of areas. One of these is substance use. I would guess that since you are applying for treatment that you would rate your circumstances as poor. Am I right? And for housing; well you told me you are homeless. Is "poor" the right answer in that area? (And so on).
